BIG GREEN IS BACK

*R*emington is proud to be the ammunition you carry into the woods, the mountains, the range, and by your side. Big Green is proud to serve Americans who so tirelessly support our Second Amendment rights. And we're proud that you put your trust behind an American manufacturer and our workforce in Lonoke, Arkansas.

Throughout our history, we've loaded some pretty important rounds. Ammunition for our armed forces. Ammunition for dream hunts. Ammunition for those celebrating the right to ring steel. But the most important round we'll ever manufacture is the next one. The one that hooks tomorrow's duck hunter on cupped wings over icy ponds. The one you'll carry to protect all that you hold dear. You see, we're dedicated to ensuring that next round is not only easily available but built with a fanatical devotion to quality.

At this very moment, we're working around the clock to get you the ammo you need. We're investing in innovation to make the Remington Ammunition of tomorrow more advanced than the ammo you hold today.

We've hired hundreds of new employees to build the biggest workforce we've ever had because we understand how important that next round is. So, thank you for your patience as we work night and day to put more ammo on the shelves and in your packs. But most of all, thank you for helping us say with a voice that grows stronger every day, "Big Green is Back."

®

NEW
**CORE-LOKT®
TIPPED**

THE DEADLIEST MUSHROOM. NOW EVEN DEADLIER.

Core-Lokt's gone long range with new Core-Lokt Tipped. Improved accuracy and ballistic coefficients combine with trusted Core-Lokt terminal performance on game.

NOW AVAILABLE
PREMIER® TSS

KNOCK THE GOBBLE OUT OF THEM.

Coming this spring, Premier TSS delivers dense Tungsten Super Shot payloads, tight patterns, and more birds to the ground.

NEW
**PREMIER®
MAGNUM TURKEY
HIGH VELOCITY 20GA**

Bust big toms with smaller gauges at faster speed. Premier Magnum Turkey High Velocity, now in 20 gauge.

NEW FOR 2022

NEW
PETERS® PAPER

PETERS PERFORMANCE IN PAPER.

Old school hull meets new school performance. With less felt recoil and that classic paper smell, break clays in style. Buy today on Remington.com.

NEW
**LOW RECOIL
PREMIER® STS®
& GUN CLUB®**

CRUSH CLAYS. NOT SHOULDERS.

Trap, skeet, or sporting, your go-to load is now available with less recoil. Shoot longer, stay stronger.

NEW
**PREMIER NITRO SPORTING CLAYS
20 GAUGE | 28 GAUGE**

You asked, we answered. The top choice in trap, skeet and sporting is now available in 20 gauge and 28 gauge.

NEW FOR 2022

NEW CARTRIDGE

30 SUPER CARRY™

The power of 9mm combined with the concealability of 380 Auto, new 30 Super Carry is designed with concealed carry needs in mind. Available for the range with UMC and for EDC with HTP.

ED SUPER CARRY™

NEW

RANGE CLEAN™

Designed to eliminate lead at the firing position, a must for indoor ranges. Available in common cartridges and loadings.

NEW

GOLDEN SABER® DEFENSE

Trusted Golden Saber performance, build to defend when it matters most. Available in loads optimized for both full size and compact handguns.

NEW

UMC® HANDGUN 327 FEDERAL MAGNUM

Your favorite range rounds now come ready in 327 Federal Magnum.

BUY REMINGTON DIRECT

You've asked for it, and it's here. Order Remington Ammunition, accessories and merchandise direct from www.remington.com.

NEW FOR 2022

NEW

PREMIER® MATCH ACCUTIP-V™ | UMC® 224 VALKYRIE

Match day, range day or a prairie dog's last day, reach out further with Remington and new 224 Valkyrie. Available in Premier Match, UMC rifle, or Accutip-V offerings.

NEW

PREMIER MATCH 6.5 PRC | 6.5 CREEDMOOR 6.5 GRENDL | 260 REMINGTON 224 VALKYRIE

Compete and win with Remington's new assortment of Premier Match cartridges, available for the first time.

NEW

UMC® RIFLE 450 BUSHMASTER | 300 BLACKOUT 224 VALKYRIE

Let freedom ring. UMC rifle now available in three new offerings.

NEW

MAGNUM RIMFIRE 17 HMR

Varmints beware, two new 17 HMR loads now available in both a jacketed hollow point and a pointed soft point.

NEW

CORE-LOKT® 350 LEGEND & 450 BUSHMASTER

Your new rifle deserves Core-Lokt. Make it happen with new Core-Lokt 350 Legend and 450 Bushmaster.

NEW

CORE-LOKT TIPPED

In 1939, Remington introduced what is today the best-selling deer ammo of all time, Core-Lokt®. America's original controlled expansion bullet, the revolutionary design changed big game hunting forever. By mechanically locking the bullet's tapered copper jacket to its solid lead core, jacket and core separation is prevented. With resulting high weight retention, the bullet also reliably expands to more than twice the original caliber, earning Core-Lokt the moniker "The Deadliest Mushroom in the Woods."

In 2021, ammunition specialists at Remington built on this legacy with the introduction of new Core-Lokt Tipped. Combining the terminal performance and hard-hitting power of classic Core-Lokt with an improved design and new polymer tip, Core-Lokt Tipped provides match-grade accuracy with truer flight, flatter trajectory and increased long-range potential. With better ballistic coefficients, Core-Lokt Tipped takes the deadliest mushroom from the deer woods to the plains, mountains, and prairies to pursue far away game.

Proudly made in Lonoke, Arkansas, Remington continues to produce millions of rounds of both Core-Lokt and Core-Lokt Tipped. The Deadliest Mushroom in the Woods is Now Even Deadlier.

***SEE CORE-LOKT
TIPPED IN ACTION!***

NEW

CORE-LOKT® TIPPED

New for hunting season, this is Core-Lokt® Tipped. Offering proven on-game performance with improved accuracy and long-range potential, it's fair to say the legend just became more legendary. Thousands of rounds in development, Core-Lokt Tipped combines truer flight, flatter trajectory and devastating terminal energy. No wonder it's the consistent choice of serious hunters all over the world.

1 BIG GREEN POLYMER TIP

Improves long-range ballistics, in-flight accuracy, and initiates rapid expansion

2 PROVEN CORE-LOKT JACKET

Tuned for optimal performance on big game

3 MATCH-GRADE ACCURACY

Center of gravity adjusted rearward to maximize accuracy

4 PREMIER BRASS

Factory fresh brass built to the highest of standards

5 ADVANCED PROPELLANTS

Carefully chosen propellants built for a clean burn and utmost accuracy

6 REMINGTON PRIMER

Steady and consistent ignition when it matters most

THE DEADLIEST MUSHROOM. NOW EVEN DEADLIER.

PREMIER SCIROCCO® BONDED

Big game beware because the remarkable Scirocco bullet by Swift™ is coming for you. As the leader in bonded, tipped bullets, Scirocco delivers the highest ballistic coefficient, the flattest trajectory, and unsurpassed accuracy. Combined with maximum retained energy and superior weight retention, it's unquestionably the toughest polymer-tipped bullet on bucks, bulls, and boars at all ranges. Powerful performance. Ultimate accuracy. Big game won't know what hit 'em.

EXPANDS RELIABLY OVER A WIDE RANGE OF TERMINAL VELOCITIES.

Premier Scirocco Bonded

THE TOUGHEST POLYMER-TIPPED BULLET. PERIOD.

PREMIER®
ACCUTIP-V
AND PREMIER
ACCUTIP

PRECISELY THE VARMINT
HUNTING BULLET OF
YOUR DREAMS.

Optimized to deliver superior match-grade accuracy and maximum downrange energy whenever, and wherever you need it, every time. Specially engineered for varmint hunting, AccuTip-V bullets are optimized for match-grade accuracy and explosive on-game results. At impact, its gold polymer tip is driven rearward causing the thin jacket and soft lead core to fragment violently. The AccuTip slug we load in the 450 Bushmaster has proven itself on big game time and time again as one of the most accurate and lethal big game projectiles ever conceived.

ONE SERIOUSLY LETHAL
HUNTING TIP.

- ▲ **POLYMER TIP**
Eliminates nose deformation
- ▲ **SLEEK PROFILE**
Optimizes ballistic coefficient for flat trajectory
- ▲ **JACKET THICKNESS**
Tuned for violent terminal performance
- ▲ **MATCH-GRADE ACCURACY**

HYPERSONIC® BONDED

It's fair to say that HyperSonic Bonded is the most lethal big-game ammunition ever engineered. With hyper-charged velocities up to 200 fps faster than standard loads, it delivers laser-flat trajectories and higher downrange energies. Simply put, it plows through hide, meat, and bone like a hot knife through butter. By pairing the most advanced bonded bullet design of Core-Lokt® Ultra Bonded with a proprietary blend of propellants, HyperSonic Bonded is a high velocity load that's second to none.

GAME-CHANGING VELOCITY MEETS GAME-LEVELING BULLET DESIGN.

OUR DEADLY FORMULA:

▲ CORE-LOKT ULTRA BONDED DESIGN

Carries boosted velocities and energies through heavy bone with absolute lethal command

▲ PROPRIETARY PROPELLANT BLEND

Delivers velocities up to 200 fps faster than standard loads

▲ REMINGTON-MADE BRASS

First-quality brass for consistent feeding and extraction

THE BIGGER THE GAME THE BETTER.

CORE-LOKT:[®] MAKING THE MUSHROOM

Pioneered in 1939, the now classic Core-Lokt controlled expansion design has proven itself on millions of big game animals. Made in Lonoke, Arkansas since the 1960's, the Deadly Mushroom is made in largely the same way it was first designed.

First, the expert technicians at Remington make the bullet's jacket from copper and zinc gilding metal. A disc is blanked out of metal strip and drawn into a cup that resembles a thimble [1].

Next, the cup is annealed to soften and prepare the metal for the drawing or stretching process on a press. The jacket becomes a long cylinder and it's wall thickness is now established [2-4].

The jacket's wall thickness helps determine the bullet's final expansion on your next hunt. Thin at the mouth, the jacket is progressively thicker and thicker from the mouth to the heel to control expansion at all ranges.

An annealing process next eliminates stress from the draw process and ultimately helps stop the jacket from splitting upon impact. The jacket is now made with the right length, weight, interior and exterior dimensions [5].

Next, the jacket and a precise weight piece of lead that will comprise the core of the bullet are paired together on a bullet assembly machine.

The lead in Core-Lokt is combined with antimony, a chemical element that helps make the lead not so soft that it over-expands on game and under-penetrates, and not so hard that it under-expands and over-penetrates.

Coming to the bullet assembly machine as a long wire, the lead is cut to a consistent length [6]. The lead is inserted into the jacket via punches and dies, seating the lead in place and

expanding the soft metal to fill the harder copper jacket [7].

Next, the familiar shape of the bullet is formed, with the ogive, meplat and correct amount of exposed lead at the nose [8-10]. Finally, a cannelure is put on the bullet to help it stay put within the cartridge case [11].

Throughout this process, the ammo experts at Remington are checking and rechecking the bullets and their materials to ensure that the sizing,

quality and the characteristic of each component is up to our high standards of performance.

The Core-Lokt bullet is now finished and ready for the process that every handloader is familiar with. The dance of primer, brass case, powder and bullet begins, and at Remington, the final product is hundreds of millions of loaded rounds of *The Deadliest Mushroom in the Woods* packed up and ready to head to millions of hunters all over the world.

CORE-LOKT®

RULING THE WOODS FOR OVER 80 YEARS.

Since 1939, Core-Lokt has been a whitetail's worst enemy. As the original controlled expansion bullet, it's filled more tags on more continents than any other load. Available in more caliber and cartridge options than any other deer load, Core-Lokt's tapered copper jacket is locked to a solid lead core to deliver massive 2X expansion, weight retention and consistent on-game results. Core-Lokt. The buck stops here.

SUBSONIC

BREAKTHROUGH ACCURACY THAT NEVER BREAKS THE SOUND BARRIER.

Our new Subsonic load is engineered for optimal performance when paired with a suppressor. Loaded with premier components under stringent quality controls, this load delivers consistent, subsonic velocity to prevent supersonic cracks. Bullets in full profile jacketed and open-tip flat base eliminate lead buildup in suppressor ports.

UMC® RIFLE

AMERICAN PRIDE MEETS REMINGTON PERFORMANCE.

Value-priced for high-volume shooting, our UMC centerfire rifle ammunition is made right here in the USA and available in 10 popular cartridges, including the 308 Win, 300 AAC Blackout and 30 Carbine. And for all the varmint hunters out there, the 45 and 50-grain jacketed hollow point loads in 223 Remington and 22-250 Remington are ready to deliver. UMC centerfire is also available in 6.8mm Remington SPC, 30-06 SPRG, 303 British and now the 450 Bushmaster. More value. More performance. It's a win-win situation.

MANAGED-RECOIL®

HALF THE RECOIL. TWICE THE CONFIDENCE.

For years, shooters have wished for and hand loaders have attempted to create a low-recoil load – usually by simply reducing the amount of gunpowder. The results did create low kick, but at the expense of bullet expansion and on-game performance. For many years, the gap between low recoil and effective hunting performance seemed an insurmountable one. That is, until now. Managed-Recoil Centerfire Ammunition delivers trusted Remington field-proven hunting performance out to 200 yards, with half the recoil. How? Through a specialized new bullet developed specifically to perform at lower velocity levels. Managed-Recoil bullets deliver 2x expansion with over 75% weight retention on shots inside of 50 yards and out to 200 yards. The end result is a high-performance bullet optimized to provide the on-game results you've come to expect from Remington Ammunition with just half the felt recoil.

ULTIMATE MUZZLELOADER PRE-PRIMED CASES

BOLT-ACTION CENTERFIRE SIMPLICITY.

Engineered exclusively for the Ultimate Muzzleloader, pre-primed cases load with the ease of any centerfire. Super-hot magnum primers ignite up to 200-grain loads with near smokeless efficiency. The flash channel stays clean and ready for the next load and there's no need to remove the breech plug for cleanup.

YOUR MUZZLELOADER'S ULTIMATE PERFORMANCE ADVANTAGE.

UNLEASH ULTRA MAGNUM LOADS

With a dependable and durable design made of primed centerfire brass, the UML Ignition System handles 200-grain magnum charges, resulting in lethal 300-yard performance. For maximum burn and efficiency, use up to four (4) Hodgdon® Triple Seven® 50 grain pellets to safely achieve 2,400 fps (muzzle) in the Remington Ultimate Muzzleloader.

Do not load your muzzleloader in a way that is not prescribed by its owner's manual.

PREMIER ACCUTIP

OUR BEST TIP FOR MUZZLELOADER ACCURACY.

Take muzzleloader accuracy to the next level with 100% copper, Premier AccuTip bullets. The polymer tipped, 50 caliber, 250-grain bullet delivers rapid expansion with 100% weight retention. Designed for use in any 50-caliber muzzleloader.

WINGMASTER HD™

Our ammunition experts have brought back Wingmaster HD, the one-stop shop in duck and goose high-density shotshell rounds. Testing proves Wingmaster HD delivers the best combination of pellet energy and pattern density resulting in high pattern energy on target. At 12 g/cc, our tungsten blend is 6% denser than lead and nearly 50% denser than steel. Wingmaster HD features higher retained energy, with uniform, smooth, round pellets for dense and efficient patterns. Expect deeper penetration and more pellets on target. If you want the most balanced tungsten waterfowl shotshell on the market, Wingmaster HD delivers.

▲ HIGHER RETAINED ENERGY

Denser than lead with excellent patterns

▲ ROUND, SMOOTH TRUE-SIZED PELLETS

Dense, efficient patterns with deep penetration

▲ DEEPER PENETRATION AND MORE PELLETS ON TARGET

Equal energy – 3 shot sizes smaller than steel

THE OPTIMAL BALANCE OF PELLET ENERGY AND PATTERN DENSITY

HYPERSONIC STEEL®

THE WORLD'S FASTEST, HARDEST-HITTING STEEL.

It's a simple fact. Most ducks are missed from behind. The good news? The unprecedented velocity of Remington HyperSonic Steel compensates by reducing the required lead by a full body length at 40 yards — on a duck flying at average speed. The end result: more pellets in the head and neck for quicker kills and fewer misses — all without changing the way you shoot. HyperSonic Steel. Taking lethality to deadlier new heights.

**QUICKER KILLS. FEWER MISSES.
11% SHORTER LEADS.
MORE HEAD & NECK HITS.**

- **HIGH VELOCITY STEEL**
(1450 fps, 1½oz.) @ 40 yds
- **HYPERSONIC STEEL**
(1700 fps, 1½oz.) @ 40 yds

**AT 1,700 FPS, HYPERSONIC STEEL GIVES
YOU AN 8" LEAD ADVANTAGE AT 40 YARDS.**

- **UNEQUALLED LETHALITY**
Engineered to put more pellets in the head and neck
- **XELERATOR™ WAD TECHNOLOGY**
Remington's proprietary wad helps deliver unprecedented velocity and holds patterns tighter downrange

NITRO-STEEL®

MORE STEEL TO THE BIRDS.
MORE BIRDS TO THE GROUND.

The steel serious waterfowlers depend on. Premier, zinc-plated, 100% round pellets fly straight, delivering true close to long-range pattern performance. Plus, Nitro-Steel is fully compatible with aftermarket ported and wad-stripping chokes. It's a proprietary blend of components that produces more dead birds than any other load, year after year.

NOW AVAILABLE

PREMIER® TSS

Send more big ol' Toms to the ground with our Premier TSS Turkey Loads. New ultra-dense Tungsten Super Shot payloads deliver increased lethal range, denser patterns, and more knockdown power. A density of 18 g/cc makes a smaller shot size viable over what you'd choose in lead, with an energy and velocity increase to boot. Every load is tuned for the tightest, most consistent patterns possible. Get ready for the most deadly turkey season of your life.

NITRO PHEASANT®

For pattern, energy and performance, nobody beats Nitro Pheasant. It uses the Remington Copper—Lokt copper-plated lead shot with high antimony content — the hardest lead we make for hunting. Hard shot stays rounder for truer flight, tighter patterns and greater penetration. So when it comes to bringing down tough birds like pheasant, you need a load that delivers maximum pattern density and lethal energy—you need Nitro Pheasant. Available in both high velocity and magnum loads in 12- and 20-gauge.

EXPRESS® XLR EXTRA LONG RANGE

Simply, the best-balanced, tightest-patterning upland field loads available. Decades of hunters have come to know and trust Express XLR to knock down the biggest upland game around. The time-proven excellence of the Express XLR (Extra Long Range) line with eight loadings — 12-gauge to 410 bore— and shot sizes ranging from #2 all the way down to #7½, for everything from pheasant and quail to rabbits and squirrels.

ULTIMATE DEFENSE™ BUCKSHOT

These rounds deliver dense, devastating patterns and massive knockdown power when the stakes are at their highest. Short-range patterns in smoothbore barrels are tight and effective for one-shot confidence. Full power 12-gauge, and Managed-Recoil 12- and 20-gauge loads complete this line by offering buckshot products well suited to anyone's desire for maximizing their shotgun's effectiveness against an imminent threat. Our .410 load packs four lead 000 buckshot pellets to maximize effectiveness of the .45/.410 revolvers.

EXPRESS MAGNUM & EXPRESS BUCKSHOT

One of the great values in shotgun deer loads. A combination of heavy cushioning behind the shot column and a granulated polymer buffering helps maintain pellet roundness for tight, even patterns.

PREMIER® ACCUTIP SABOT SLUG

PUNCHES HUGE HOLES WITH PINPOINT ACCURACY.

It's flattening whitetails and competitors in the tipped-slug market with devastating ferocity. A true masterpiece of aerodynamics delivering tremendous knockdown force to the farthest reaches of rifled shotgun range. Spiral nose cuts and high-strength cartridge-brass jacket come together to create large, perfect mushrooms with over 95 percent weight retention from 5 to 200 yards. Available in 2 3/4" or 3" 12-gauge and 20-gauge.

1,900 FPS FLAT-OUT CRUSHES BIG GAME.

- ▲ DESIGNED FOR USE IN FULLY RIFLED BARRELS ONLY

SLUGGER HIGH VELOCITY RIFLED SLUG

This higher velocity slug exits the barrel at 1800 fps, 13% faster than standard 1-oz. slugs. The 7/8-oz. Slugger High Velocity delivers more energy at 50 yards with flatter trajectory on deer than standard 1-oz. slugs. Produced in most popular slug loadings—2 3/4" and 3" 12-gauge and 2 3/4" 20-gauge. Designed for the avid deer hunter using smooth bore guns.

MANAGED-RECOIL SLUGGER RIFLED SLUG

Devastating performance, but with 45% less felt recoil than full velocity Sluggers. Less recoil makes sighting-in more comfortable, while the accuracy and speed of second shots is greatly improved. And with effective energy out to 80 yards, it handles the majority of shotgun deer hunting ranges.

SHOT

Made in Remington's Shot Tower. High antimony hard lead shot precision graded to insure perfectly round pellets with incredible uniformity for tight patterns

PREMIER STS BODY

New High Tensile polyethylene hull reloads longer, while providing an extra smooth finish for positive feeding in competition guns

CRIMP

Improved design facilitates wad insertion and reduces the forces required for final crimp — a real plus in high output progressive reloading

WAD

Remington Figure 8™ Wad is engineered to compress evenly on ignition to cushion and protect the shot. Extra deep over-powder cup positively seals gases for consistent velocity — even in overbored guns

BASE HEAD

Brass for easy resizing and long life

TEAM BIG GREEN

Remington's rich history of victory lives on with Team Big Green's roster of professional trap, skeet and sporting clays athletes. From the Grand American to the National Sporting Clays Championships, stay in touch with the team and be the first to hear when Team Remington takes the podium spring, summer and fall via www.remington.com.

Team Remington competes with Premier STS, Nitro 27 and Nitro Sporting Clays loads. A winning combination of shot-to-shot consistency and reloadability, Remington Premier shotshells are the choice of champions at major skeet, trap, and sporting clays shoots across the country.

NEW 20GA AND 28GA

PREMIER® NITRO SPORTING CLAYS

COMPETITION. WE USE THE TERM LIGHTLY.

Smoke targets and conquer the competition with Premier Nitro Sporting Clays — the finest sporting clay loads in the world today. The shell's extra velocity gives you an added advantage for those long crossers — making target leads shorter for ultimate clay-crushing satisfaction. The unique Remington Premier gold hull has earned a reputation as one of the most “reloader friendly” designs ever to hit the clay target-shooting world. This shotshell also makes a great high-velocity dove load.

PREMIER® NITRO 27 HANDICAP LOADS

ENGINEERED FOR THOSE WHO LIKE TO WIN.

Designed specifically for back-fence trap and long-range sporting clays, Premier Nitro 27 Target Loads deliver consistent handicap velocity and pattern uniformity shot after shot. Our Premier body and Power Piston® Wad reduces felt recoil while retaining high velocity and world-class performance, allowing avid trap shooters to stay fresh for the shoot-off. What's more, Premier Nitro 27 scores just as high on fast-moving doves and boasts long-range effectiveness that's backed by a long list of Remington trapshooting champions.

GOLDEN SABER® BONDED

All the revolutionary features that make Golden Saber rounds the leading edge in defensive handgun rounds, along with the unmatched barrier-penetration performance of our special bonded-bullet design. Through an exclusive Remington process, the lead core is hot-bonded to the brass jacket. Exceptional weight retention—up to 97% through auto glass. Reduced bullet nose diameter for precise bore alignment and match-grade accuracy. Requires less energy to initiate expansion. Jacket stiffness and wall thickness optimized to eliminate over-expansion, thus maximizing penetration. Available in 357 Sig, 9mm Luger, 40 S&W and 45 Auto. Made in the USA.

Even after smashing through safety glass, the 45-caliber Golden Saber Bonded delivers a large-volume stretch cavity over 12" deep through a block of gelatin.

PUNCHES THROUGH BARRIERS AND DELIVERS SUPERIOR TERMINAL PERFORMANCE BEYOND.

Below is a sequence of high-speed photographs showing the superior performance of Golden Saber Bonded through auto glass.

FRAME 1: 230-gr., 45 caliber Golden Saber Bonded bullet impacts typical windshield glass.

FRAMES 2-4: Bullet passes through windshield.

FRAME 5: Emerges from the glass intact. Jacket and core held together through ASI 1/4-inch laminated safety glass.

NEW

GOLDEN SABER® DEFENSE

Based on the same platform trusted by law enforcement professionals to protect the American way of life, now available for personal defense. Loaded with our high-performance Golden Saber Brass Jacketed Hollow Point (BJHP), these rounds deliver massive expansion and deep penetration for ultimate stopping power. Premier nickel-plated cases resist corrosion and cycle dependably after extended storage. Available in loadings maximized for full size as well as compact pistols and revolvers, as well as in the most popular calibers.

Golden Saber Defense Compact is designed with the concealed carry permit holder in mind to deliver big gun terminal performance out of shorter-barreled pistols and revolvers. This round has been engineered to provide optimal penetration and expansion even through heavy clothing at lower velocities for maximum stopping power. It's all of our premier features now finely tuned for your most important handgun.

BUILT TO DEFEND WHEN IT MATTERS MOST.

- ▲ **EXCLUSIVE BRASS JACKET**
Its precision nose cuts control expansion and optimizes energy transfer
- ▲ **CASE MOUTH AND PRIMER WATERPROOFING**
For maximum reliability
- ▲ **NICKEL-PLATED CASES**
To reduce oxidation and improve feeding and extraction
- ▲ **SPECIALLY TREATED POWDERS**
To suppress muzzle flash

REMINGTON RANGE[™] CLEAN

CLEAN SHOOTING CONFIDENCE.

From lead-free primers, to specially designed bullets, economical Remington Range Clean cartridges virtually eliminate lead exposure at the firing line. A must-have for shooters who frequent indoor ranges, it's jacketed bullet's enclosed base prevents lead exposure upon firing. Standard bullet weights duplicate the ballistics of conventional loads.

REMINGTON RANGE CLEAN

REMINGTON SUBSONIC HANDGUN

AMMUNITION FOR THE SILENT REVOLUTION.

Remington SubSonic Handgun ammunition is specifically designed for shooting in suppressed pistols. Engineered for maximum performance at subsonic velocities and – after a long session at the range – easier cleaning thanks to enclosed base bullets that virtually eliminate leading in suppressor ports.

RIMFIRE

RIMFIRE

PEAK PERFORMANCE IN EVERY BOX.

We're proud to offer one of the broadest selections of high-performance rimfire ammunition available today, and even prouder of the fact we continue to set the standard for accuracy and dependability industry-wide. To achieve this, every round is produced with the same tight tolerances and high level of care you've known and come to expect from Remington. From tin cans to small game to serious competitive pursuits, count on Remington to keep your rimfire dead-center.

SUBSONIC

SUBSONIC – 22 LONG RIFLE LOW VELOCITY

Remington Subsonic delivers superior stealth and consistency below the sound barrier. Its tack-driving rimfire performance was manufactured with tight velocity control to eliminate supersonic cracks. Driving a copper-plated, hollow-point bullet optimized for reduced lead buildup in suppressor ports and maximum effectiveness at lower velocity.

22 TARGET

STANDARD VELOCITY – 22 LONG RIFLE

With 40-grain round nose bullets propelled by powder and primer charges of exacting consistency, Remington 22 Target ammunition delivers match-grade precision and championship performance in every round.

22 GOLDEN BULLET

HIGH VELOCITY – 22 SHORT & 22 LONG RIFLE

Legendary 22 Golden Bullet Plated RN and HP bullets are engineered for easy cycling and solid performance. High Velocity increases downrange energy, extending your effective range. Improved priming compound ensures consistent ignition at a great value.

CBEE 22™

LOW NOISE / LOW VELOCITY – 22 LONG RIFLE

Combines low noise with excellent shot-to-shot consistency. Its 33-grain Plated Truncated-Cone HP bullet is ideal for dispatching varmints and small game at close range as quietly as possible. Its tiny report makes it an excellent choice for new shooters as well.

22 VIPER®

HYPER VELOCITY – 22 LONG RIFLE

These Plated Truncated Cone Solid Bullets are renowned for their smooth feeding in any automatic pistol or rifle. The large diameter of the flat nose imparts tremendous shock at the entry point, while the solid bullet retains all of its weight to penetrate deep. These hyper-velocity loads hold their own at the target board as well. For fast-striking, 22 performance, Viper can't be beat.

22 YELLOW JACKET®

HYPER VELOCITY – 22 LONG RIFLE

The smooth feeding and excellent penetration of a Truncated Cone combined with the stopping power and massive wound channel of a hollow point. These bullets are specially designed to deliver maximum on-game energy with excellent precision. Yellow Jacket leaves a hyper-velocity sting wherever they're dispatched.

NEW 17 HMR

PREMIER® MAGNUM RIMFIRE & MAGNUM RIMFIRE

Premier Magnum Rimfire cartridges are super-tuned to deliver unmatched shot-to-shot consistency, pin-point accuracy and explosive terminal performance. It's the ultimate choice for small game, varmint hunting. Available in 17 HMR and 22 Win Mag.

22 CYCLONE®

HIGH VELOCITY – 22 LONG RIFLE

Tin cans. Rabbits. Or a bulls-eye. High Velocity increases downrange energy, extending your effective range with 38-grain hollow point terminal performance. No matter what you put in your sights, Remington Cyclone is the perfect 22 rimfire ammunition for just about any occasion.

22 THUNDERBOLT®

HIGH VELOCITY – 22 LONG RIFLE

They've become the outstanding favorite of 22 owners the world over. These round nose bullets in high-velocity loads cover the broadest range of 22-caliber excitement. No wonder 22 Thunderbolt is our best-selling, and most popular round of all time.

REM® OIL

The quick, easy way to keep your firearms performing to their full potential. Rem Oil cleans dirt and grime from exposed metal surfaces, while displacing non-visible moisture from metal pores. It also protects internal and external metal parts from rust and corrosion. And the exclusive formula creates a thin, long-lasting film that keeps actions working smoothly by reducing metal-to-metal wear.

AVAILABLE IN:

- 10-oz. Aerosol Can (#24027)
- 6-oz. Spray Pump (Moistureguard) (#18378)
- 4-oz. Aerosol Can (#26610)
- 2-oz. Squeeze Bottle With Child Safe Cap (#18366)
- 1-oz. Squeeze Bottle With Child Safe Cap (#26617)

REM OIL WIPES

Rem Oil Wipes are an efficient way to protect your firearms. Each wipe is treated with Rem Oil, for a quick and easy application of one of the world's most trusted cleaners and lubricants. The individually packaged Rem Oil Wipes are convenient for travel or in your field pack, while the sixty-count canister is a perfect companion for everyone's workbench.

AVAILABLE IN:

- Travel Size (24 Count) (#16325)
- 60-Count Pop-Up Canister (#18384)
- 12 Individually Wrapped 6" x 8" Wipes (#18411)
- Single Packs In Counter Display (#18471)

REM® DRILUBE™

- Formulated for superior lubricity without leaving any dust collecting residue behind and is perfect for protecting your firearm in sub-zero temperatures
- Teflon®-based lubricant provides a tough, non-congealing film without the residue of dry graphite lubes
- Keeps firearms functioning dependably to -40°F

AVAILABLE IN:

- 4-oz. Aerosol Can (#18396)

SHOTGUN CLEANER

- Cleans trigger groups, gas ports, choke tube threading, receivers, chambers, barrels and magazine tubes
- Dissolves powder residue, fouled lubricants, burnt carbon deposits and gunk
- Blasts away gummy caked-on grime from hard-to-reach areas such as ejectors, firing pin assemblies, trigger components and bolt recesses

AVAILABLE IN:

- 18-oz. Aerosol Can (#18472)

BRITE BORE™ SOLVENT

- Dissolves carbon and powder fouling, removes copper, lead and plastic deposits
- Handy size for field or range use
- Low odor—contains no CFCs

AVAILABLE IN:

- 6-oz. Aerosol Can (#18394)
- 2-oz. Squeeze Bottle with Child Safe Cap (#18367)

40-X™ BORE CLEANER

- Formerly Remington Bore Cleaner
- 40-X name ties into the product's origins in Precision Benchrest Shooting
- Formulated for rifles to improve cleaning, accuracy and performance
- Fast and easy to use—no soaking or foul odors
- Contains high polishing compounds to make your bore mirror-clean

AVAILABLE IN:

- 4-oz. Squeeze Bottle with Child Safe Cap (#18397)

REM ACTION CLEANER

- Designed to ensure smooth, reliable gun function in all weather conditions
- Cleans dirt, powder residue, and caked on lubricants from actions & fire control mechanisms without disassembly
- Dissolves used lubricants, including grease and oils, producing a clean, dry surface
- Dries quickly leaving no residue
- Contains no CFC's or Carcinogens

AVAILABLE IN:

- 4-oz. Aerosol Can (#19925)
- 10-oz. Aerosol Can (#18395)

REM GUN GREASE

- Biodegradable and Non-Toxic
- Non-Melt Formula
- Wide temperature range from -20°F to 500°F
- Protects all sliding parts, threads and hinge points
- Displaces moisture and protects against rust and corrosion
- Safe for finished stocks, coated metals and polymer parts

AVAILABLE IN:

- .5-oz. Squeeze Bottle (#18501)

FIELD CABLE CLEANING KITS

ALL CLEANING KITS INCLUDE:

- Patch puller
- Pull cable with T-handle
- Cleaning patches
- Compact, water-resistant, tri-fold nylon pouch with close snaps and interior storage
- Oversized pouches include additional room for customization and storage of your favorite cleaning supplies and tools
- Heavy-duty pouch zippers with oversized pull strings for easy handling
- Quick-attach pack strap for convenience & organization

SHOTGUN KIT (#17574)

- Shotgun Adaptor

RIFLE KIT (#17599)

BORE BRUSHES INCLUDE:

- .22/.223/5.56
- .270/7mm
- .30/7.62mm

PISTOL KIT (#17459)

BORE BRUSHES INCLUDE:

- .357 /.380/9mm
- .40/10mm
- .44/.45

ROLLUP CLEANING KITS

RIFLE KIT (#15805)

- Durable codura material
- 27 pieces securely held by elastic bands
- Cleaning rod & pull-through cable for maximum cleaning
- .22, .25, .270, .30, .38, .40, and .45 caliber brushes
- Cotton swabs
- Cleaning rod adapter
- Drill adapter allows rod to attach to cordless drill
- 50" x 14" cleaning mat protects firearm and work surfaces

SHOTGUN KIT (#15806)

- Durable codura material
- 17 pieces securely held by elastic bands
- Cleaning rod & pull-through cable for maximum cleaning
- 12, 20 gauge, and .410 bore extra long bronze brushes
- Cotton swabs
- Cleaning rod adapter
- Drill adapter allows rod to attach to cordless drill
- 50" x 14" cleaning mat protects firearm and work surfaces

PISTOL KIT (#15804)

- Durable codura material
- 21 pieces securely held by elastic bands
- Cleaning rod & pull-through cable for maximum cleaning
- 12, 20 gauge, and .410 bore extra long bronze brushes
- Cleaning rod adapter
- Drill adapter allows rod to attach to cordless drill
- 14" x 14" cleaning mat protects firearm and work surfaces

SPORTSMAN UNIVERSAL KIT

- 27-piece (true count) cleaning kit
- Includes 50 patches (22 caliber to 12-gauge)
- 3-piece aluminum rod accepts standard 8-32
- Attractive wooden case with embossed Remington logo
- #19054

REM® CLEANING BRUSH SET

- Scrubbing power for removal of powder residue, carbon deposits, & fouling
- Versatile cleaning for hard to reach places
- Contoured handles for secure grip
- Can be used for multiple cleaning applications
- #16249

REM® PAD GUN CLEANING MATS

- Surface material won't scratch guns or tabletops
- Absorbent top material traps and holds up to eight times its weight in fluids

AVAILABLE IN TWO SIZES:

- 12" x 28" (#18812)
- 16" x 54" (#18813)

CARBON FIBER SINGLE PIECE CLEANING ROD WITH HANDLE

- Each rod comes with a ball-bearing handle
- Rods and handle accept standard 8-32 threads
- Shotgun rod 8mm diameter accepts 5/16"-27 threads for all standard shotgun brushes, jags, mops and pullers
- All brass fittings for maximum barrel protection during use

AVAILABLE IN:

- 12" (#16222)
- 36" (#16223)
- 40" (16224)
- 40" Shotgun (#16228)

CARBON FIBER 3-ROD CLEANING SET

- Set includes 3 Carbon rods (12", 36" and 40") and ball bearing handle
- Rods and handle accept standard 8-32 threads
- All brass fittings for maximum barrel protection during use
- #16229

REM® BRUSH

- 8-32 standard threads
- Bronze bristles resist corrosion
- Cleans without excessive abrasion

AVAILABLE IN:

- 12- / 16-Gauge (#19028)
- 20-Gauge (#19026)
- 28-Gauge / .410 Bore (#19025)
- .17 HMR / .204 / .17 (#18407)
- .22 / .223 / 5.56mm (#19017)
- .243 / .25 (#19018)
- .30 / 7.62mm (#19020)
- .357 / .380 / .38 / 9mm (#19014)
- .375 (#18409)
- .270 / 7mm (#19019)
- .40 / 10mm (#19015)
- .44 / .45 (#19023)
- .50 (#19225)

BORE CLEANING ROPE

- Nine (9) lengths to accommodate a wide range of calibers and gauges
- Dual rows of bronze bristles for strong cleaning
- Loop handle for easy pull

AVAILABLE IN:

- 12-Gauge (#17748)
- 20-Gauge (#17749)
- .50 / .54 (#17759)
- .410 Bore / .416 / .44 / 45-70 / .458 / .460 (#17758)
- 308 / 30-30 / 30-06 / .300 / 7.62 (#17757)
- .270 / 7mm / .280 / .284 (#17755)
- .25 / 25-06 / 6.5 / .260 / .264 (#17754)
- 6mm / .243 (#17756)
- .22 / .22-250 / .223 / 5.56 (#17753)

REM® CLOTH WITH MOISTUREGUARD

- 10" x 10" non-abrasive cloth
- Instantly protects metal surfaces
- Safe on blued, and all metal finishes
- Reusable—includes zip seal pouch
- Washable and can be re-energized by retreating with Rem Oil with MoistureGuard
- #19902

BENCHREST SHOOTING BAGS

- Three (3) sizes provide versatility, comfortable positioning and stock & barrel support
- Durable 1000 denier Codura
- Quick Clip attachment for easy transport
- Six (6) Round velcro shell holder
- Velcro closure securely holds fill material
- #17336

HUNTING BLIND SHOOTING BAG

- Secure resting platform for blind or shooting rail
- Durable 1000 denier Codura
- Velcro straps for quick attachment
- Easy fill velcro closures securely holds fill material
- #15802

12" GUN SACK WITH SILICONE

- 12" Pistol
- Silicon treated
- Multi-color green
- Draw string closure
- #17269

52" GUN SACK WITH SILICONE

- 52" Long Gun
- Silicon treated
- Multi-color green
- Draw string closure
- #18494

CHOKE TUBE HARD CASE

- Securely holds 5 choke tubes & choke tube wrench
- Elastic bands accommodate all gauges
- Durable hard case
- Zipper closure
- Convenient belt loop for easy carry
- Great size for range or blind bag
- Remington embossed
- #19959

CHOKE TUBE SOFT CASE

- Durable codura material
- Wide elastic bands securely hold 7 choke tubes
- Front zipper pouch for choke tube wrench, accommodates extended tubes
- Applicable all gauges
- Double belt loops
- Snap on clip for attachment to range bag
- #15803

MODEL 365 DEHUMIDIFIER

- Protects up to 60 days before recharging is necessary
- Self-contained unit requires no wiring or extension cords
- Protects 333 cubic feet
- #19950

MODEL 500 DEHUMIDIFIER

- Works in a 500-cubic-foot area
- No battery or cord needed
- Works up to 10 years
- Non-toxic, child and pet safe
- Eco-friendly
- #19946

METAL FIELD BOX/AMMO CAN

- 30 caliber
- Heavy duty latching system
- Folding handle
- #15807

PLASTIC FIELD BOX/AMMO CAN

- 30 caliber
- Waterproof polypropylene provides dry storage
- Heavy duty latching system
- Strong folding handle
- #15808

Other substitutions should not be made without specific recommendation of the firearms manufacturer since improper combinations could result in firearm damage or personal injury.

NOTE A: *High-speed cartridges must not be used in revolvers. They should be used only in rifles made especially for them.*

NOTE B: *Ammunition with "A-P" on the case headstamp is loaded to higher pressure. Use only in firearms designated for this cartridge and so recommended by the gun manufacturer.*

NOTE C: *Not for use in revolvers chambered for 32 S&W or 32 S&W Long.*

NOTE D: *All 38 Special cartridges can be used in 357 Magnum revolvers but not conversely.*

NOTE E: *9mm sub machine gun cartridges should not be used in handguns.*

NOTE F: *44 Russian and 44 S&W Special can be used in 44 Remington Magnum revolvers but not conversely.*

NOTE G: *Not to be used in Win. M-66 and M-73.*
